

## Empowering Project

The recently received turnkey project related to the heavy coker gas oil hydrotreating unit from MRPL reinforces Tecnimont ICB's position as a leading firm in the EPC segment of the Oil & Gas sector.

**T**ecnimont ICB Pvt Ltd (TICB) fully owned by Tecnimont SpA, the main operating company of Maire Tecnimont Group, has been awarded an important lump-sum turnkey project related to the heavy coker gas oil hydrotreating unit (CHTU) in Mangalore, Karnataka. TICB has received an official Award Notification from Mangalore Refinery and Petrochemicals Ltd (MRPL), a subsidiary of ONGC, a leading Indian public group in Oil & Gas exploration and production.

The project is on a lump-sum turnkey basis for approximately Rs 390 crore and foresees the provision of engineering, procurement, construction and commissioning (EPCC) services for the CHTU. The project is part of the complex "Phase - III Refinery Project", developed by MRPL at Mangalore. The facilities will be completed by end 2011. The project concerns the setting up of new 3 million metric tonne per year (MMTPA) crude

processing refinery facilities and increasing the capacity of refinery facilities up to 15 MMTPA upon completion.

TICB, on being awarded this important contract, has further reinforced its position as a leading EPC company in the Oil & Gas sector, confirming the significant role of Maire Tecnimont Group in the Indian market. Maire Tecnimont SpA is the parent company of an international industrial group which provides a comprehensive, integrated system of services and installations in its sectors i.e. Chemicals and Petrochemicals, Oil & Gas, Power, Civil Engineering and Infrastructure. **Pietro Alessandrello, Managing Director, TICB**, says, "The award of this contract to TICB is an important achievement for the company and for the Maire Tecnimont Group, confirming its important role in the growth of the Indian Oil & Gas sector".

## Skylights delights

MALIBU Plastica's Polycarbonate Skylights 'Domes and Pyramids' with their beneficial features are very much in demand among architects, consultants and planners of leading infrastructure companies.

**M**alibu Plastica (P) Ltd is an ISO 9001:2008 certified company engaged in manufacturing of extruded/co-extruded compact solid sheets; embossed sheets; pipes - profiles and thermoformed articles made out of Polycarbonate, Acrylic and other engineering thermoplastics as per customer requirements. It offers readymade Polycarbonate Skylights called Domes and Pyramids made from UV coated sheet. MALIBU series Domes and Pyramids are widely accepted by architects, consultants and leading infrastructure companies. They are well suited for Green Building concepts/material standards as it assists in energy saving and gives natural daylight penetration inside the building/house instead of using electricity energy for lighting - one of the causes for carbon emissions - to generate/supply power by power house.

used for daylight penetration inside working area of workshop/factory and living areas of villas/bungalows. It allows natural daylight inside the building with diffused light transmission due to the specific embossed surface of the MALIBU skylights. It saves electricity and provides a natural atmosphere. These Polycarbonate Skylights are virtually unbreakable, fire retardant, transmit natural light, withstand high atmosphere temperature and are weather resistant for a long-lasting life span of 10 to 15 years.

Situated near Ahmedabad, Gujarat, Malibu Plastica (P) Ltd has taken over a unit MH Polymers which is a pioneer in the manufacture of Polycarbonate Sheets in India since 1987 with a state-of-the-art plant from Omipa spa, Italy and has started making new eco-friendly/recyclable products with RoHS compliance.
